

HOW TO BUY \$KROM ON OPTIMISM USING METAMASK

* instructions *

For these instructions, we presume you already have a Metamask wallet.

If this is not the case, please go to <https://metamask.io>, create a wallet, set-up your password, secure your seedphrase and add the preferred amount of ETH to the Ethereum mainnet.

The following instructions guide you on how to buy KROM on the Optimism network, a L2 on Ethereum, using the Kromatika swap aggregator.

1- Add the Optimism network to your Metamask

To add a network (blockchain) to your wallet you'll need the following information:

1. Network Name
2. RPC URL
3. ChainID
4. Symbol
5. Blockchain Explorer URL

The official Metamask support refers to the following website for the most userfriendly way to add networks to your wallet. Go to:

<https://chainlist.wtf/>

Connect your wallet and search for the Optimism chain. Make sure you are adding the main Optimism network, not the test ones (Kovan). Click on 'Add Chain' and accept with your wallet.

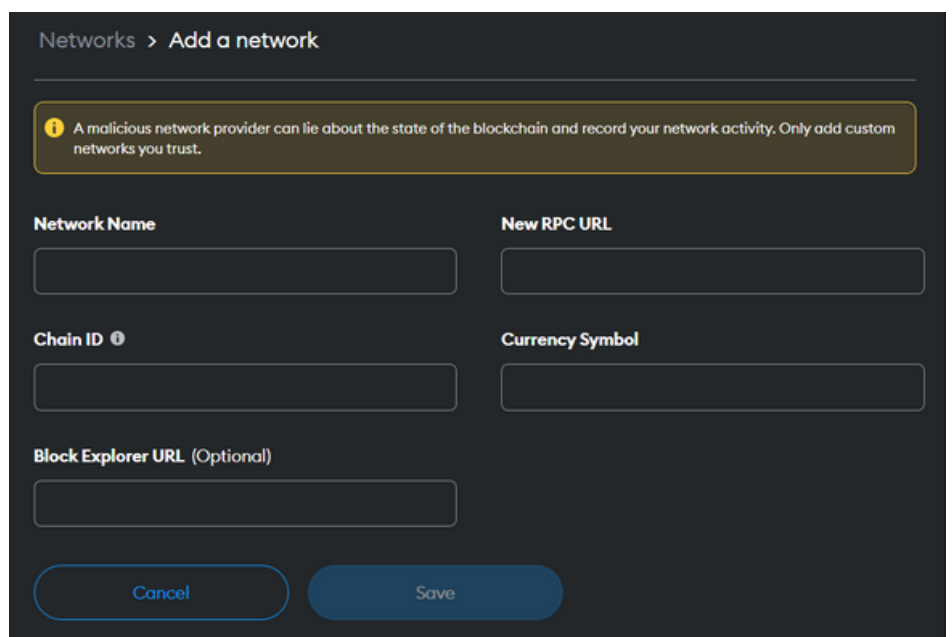

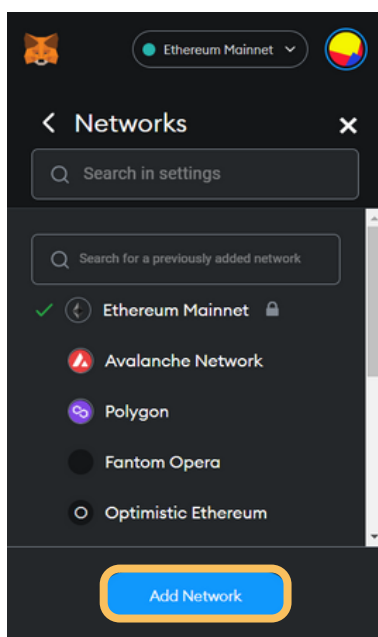

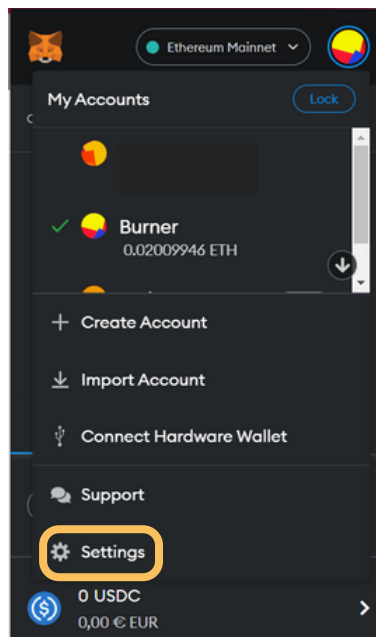

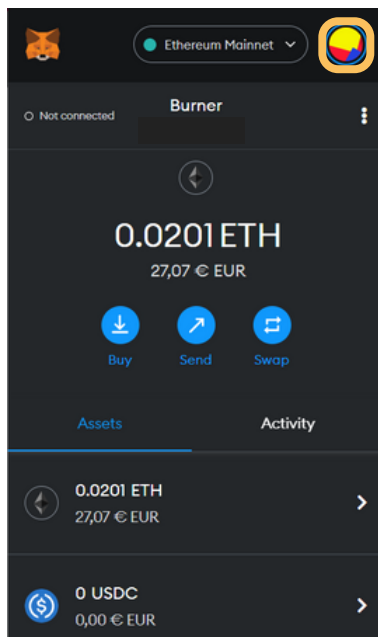

HOW TO BUY \$KROM ON OPTIMISM USING METAMASK

* instructions *

If you prefer to add the network manually, go to your Metamask wallet and click on the circle symbol (upper right) for your wallet. Scroll down until you see Settings. Click on it, next go to 'Networks'. Click on 'Add Network'

HOW TO BUY \$KROM ON OPTIMISM USING METAMASK

* instructions *

Now, you need to enter all details for the network you wish to add. Only trust and use official sources for network information.

Network Name
Optimistic Ethereum

New RPC URL
https://mainnet.optimism.io

Chain ID
10

Currency Symbol
ETH

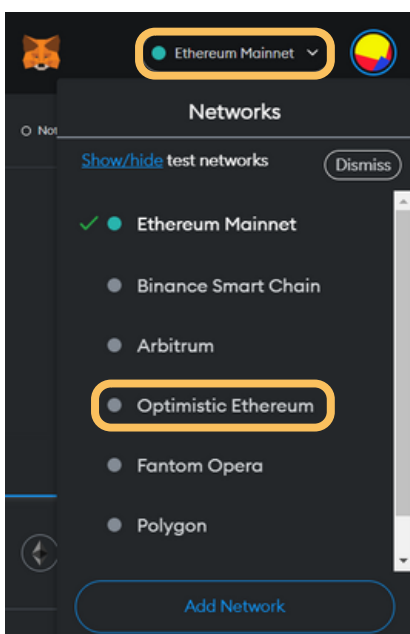

Block Explorer URL (Optional)
https://optimistic.etherscan.io

Delete Cancel Save

The following information corresponds to the Optimism Network:

1. Network Name: Optimistic Ethereum
2. RPC URL: <https://mainnet.optimism.io>
3. ChainID: 10
4. Symbol: ETH
5. Blockchain Explorer URL: <https://optimistic.etherscan.io>

Click to confirm the network details. You will now see the Optimism network in your Metamask. You can switch networks using the dropdown list on top.

HOW TO BUY \$KROM ON OPTIMISM USING METAMASK

* instructions *

Before you can start trading on the Optimism network, you will need to bridge your funds to Optimism. You can do this using the native Optimism bridge, or via one of the many protocols providing bridging.

An overview of these protocols can be found on the following website:

<https://www.optimism.io/apps/bridges>

Now you're all set to start trading on Optimism.

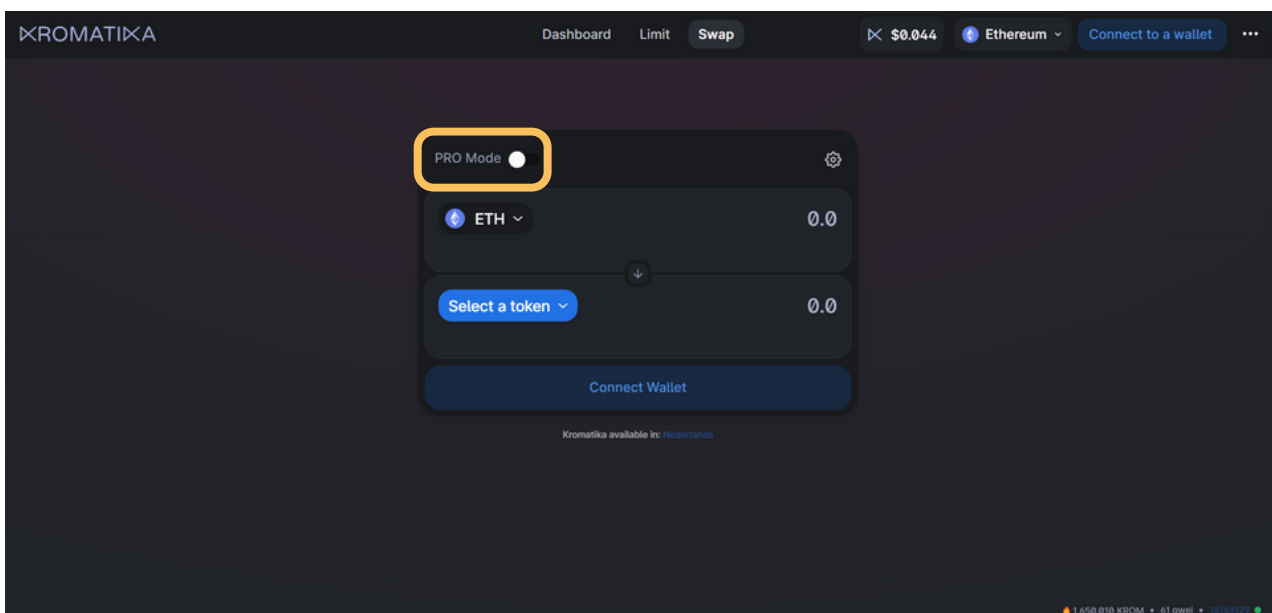

1- Go to Kromatika.finance

You can go to Kromatika.finance or go directly to our dapp:

<https://app.kromatika.finance/#/swap>

By default, the KROM/WETH pair will open.

You can choose to stay in the regular mode or switch to 'PRO Mode' using the slider. This will give you access to more detailed charts and trading data.

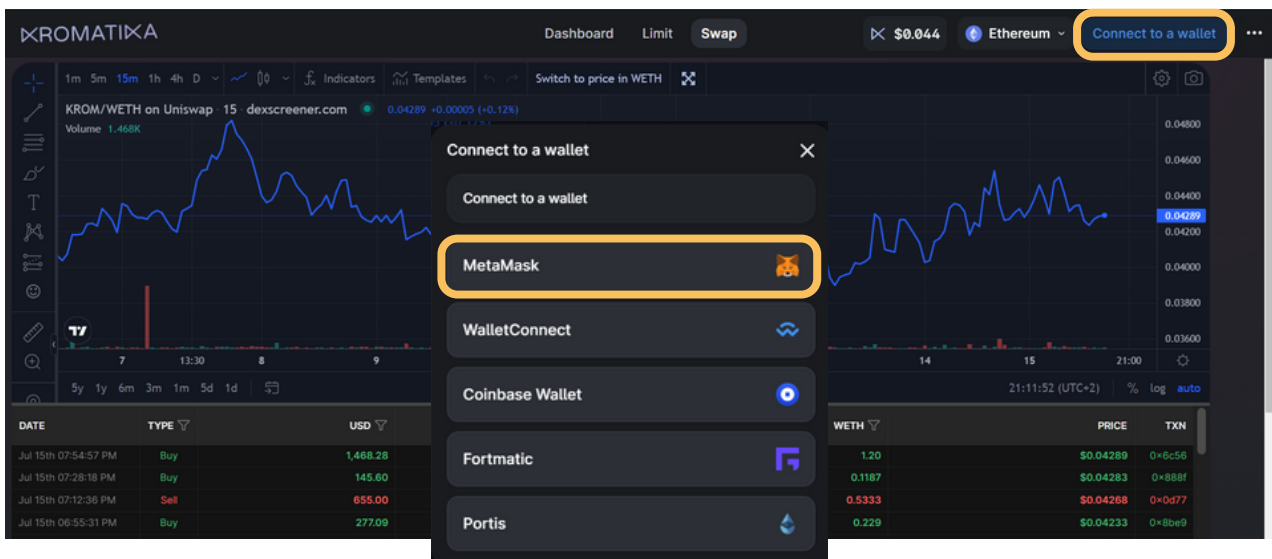

HOW TO BUY \$KROM ON OPTIMISM USING METAMASK

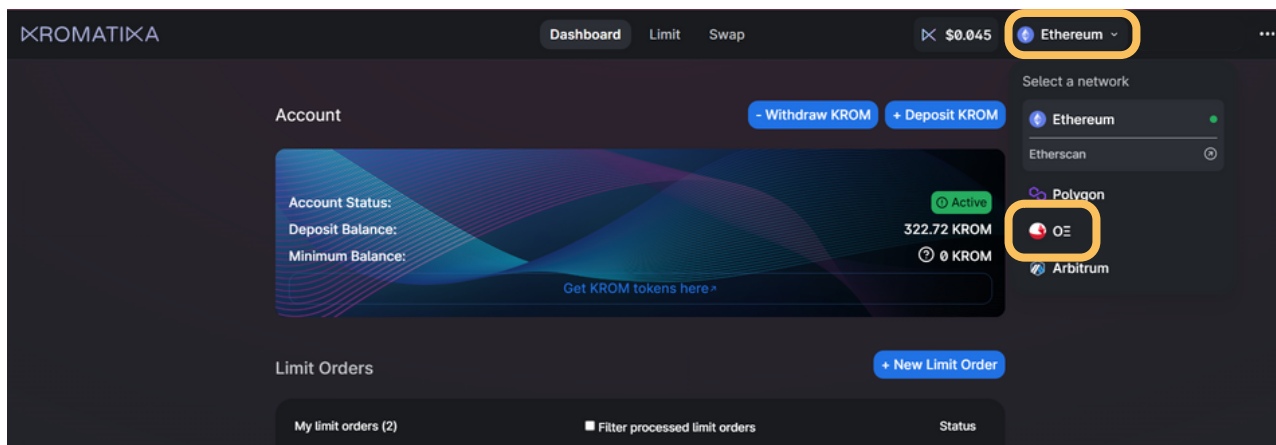

* instructions *

2- Connect your wallet

3- Switch to the Optimism network

Click on the Ethereum dropdown list and select OE for the Optimism Ethereum network. Confirm the switch with your Metamask wallet.

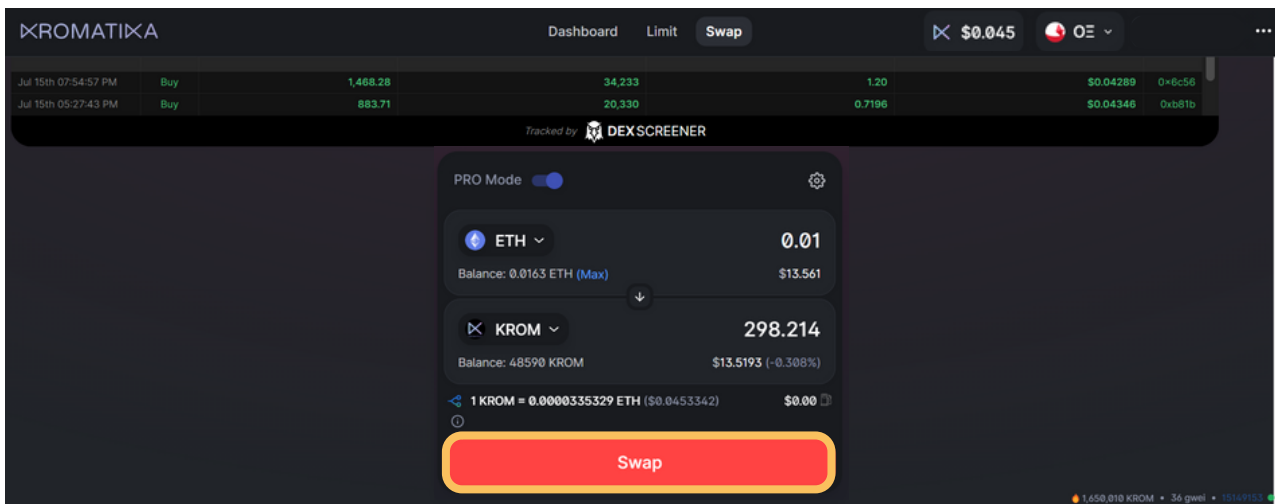

HOW TO BUY \$KROM ON OPTIMISM USING METAMASK

* instructions *

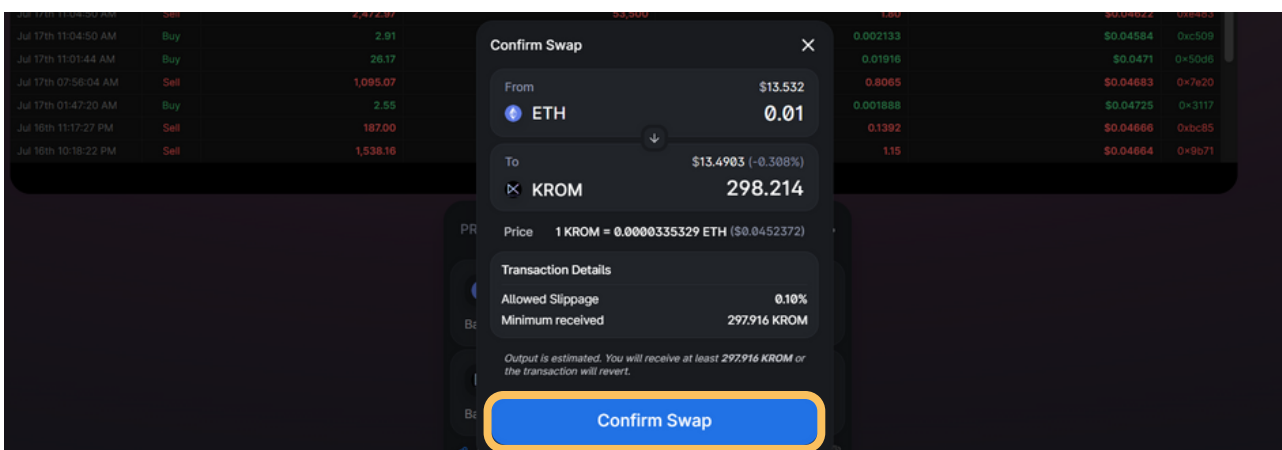

4- Set up your swap

Now that your wallet is connected, enter the amount of ETH you want to swap for KROM. You will need to pay ETH gas fees (however low on L2), so select an amount lower than your max ETH value. Now click 'Swap'.

5- Confirm the transaction

Review the details of your swap and click 'Confirm Swap'. Next, you will be asked to confirm the transaction in your Metamask wallet.

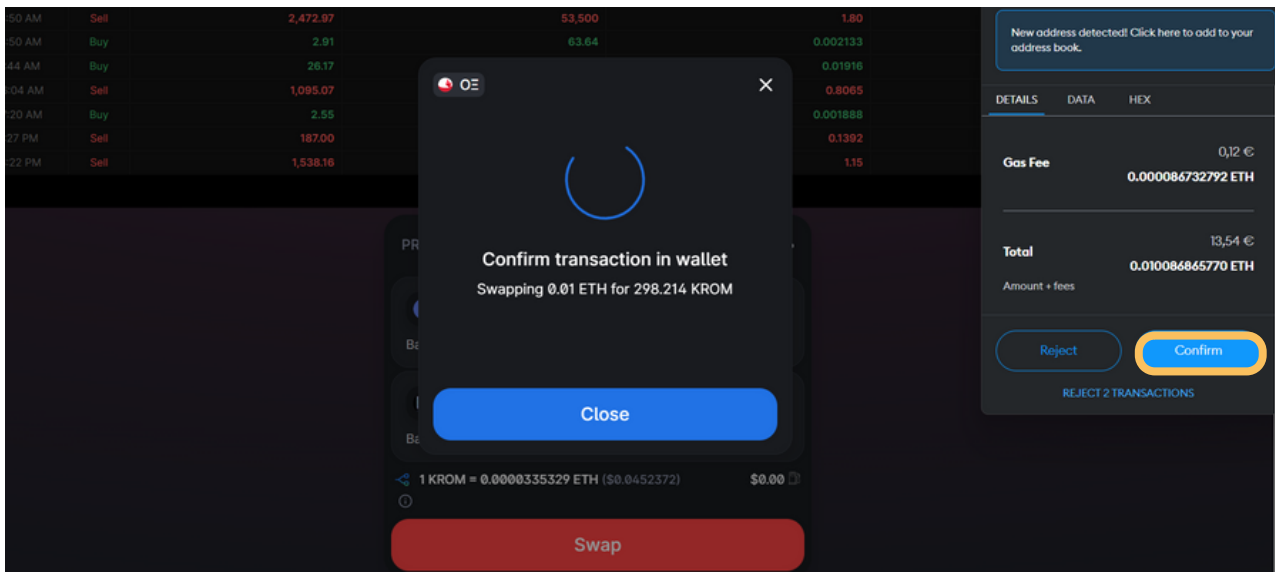

HOW TO BUY \$KROM ON OPTIMISM USING METAMASK

* instructions *

5- Confirm the transaction (2)

Your transaction is being executed on the Optimism Network.

* instructions *

6- Add KROM to your Metamask

Once you have bought your KROM, you want to add KROM to your Metamask list of tokens.

First, go to your Metamask (open the extension in full screen) and click on 'Import tokens' on the bottom of the screen.

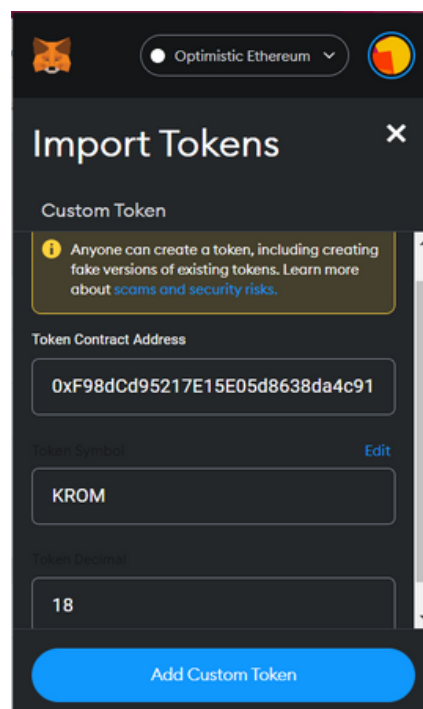

Now you can add a Custom Token via the KROM contract address:

`0xF98dCd95217E15E05d8638da4c91125E59590B07`

Please mind, this is the token address for the Optimism network.

Click on confirm to add KROM to your token list.

HAPPY TRADING!
